

**Sponsored by the
Center for Reproductive Biology,
Washington State University
and the University of Idaho**

Seminar Presented by:

*Dr. Eric Juengst
Case Western Reserve University*

**“Ethical Issues in Contemporary Human
Embryology”**

Dr. Juengst is internationally known for his work on conceptual and ethical issues in human genetics. He is currently a Professor of Bioethics and the Director of the Center for Genetic Research Ethics and Law at Case Western Reserve University School of Medicine. Dr. Juengst has served on numerous Advisory Councils and Bioethics Committees for agencies such as NASA and the National Institutes of Health. We are delighted to include in the CRB Seminar Series the 2005 winner of the “Golden Eurydice Prize” for leadership in advancing the study of ethical issues in Science.
