Titles Available:

Dr. Greg Lewis, USDA/ARS, "Steroids and Eicosanoids in the Regulation of Uterine Immune Defenses", March 2005

Dr. Andy Roberts, USDA/ARS, "The IGF System and Reproduction in Cattle", April 2005

Dr. T. Rajendra Kumar, University of Kansas Medical Center, "Mouse Models to Study Testicular Somatic & Germ Cell Biology", May 2005

Dr. Michael Skinner, Washington State University, "Epigenetic Transgenerational Actions of Endocrine Disruptors on Male Reproduction", June 2005

Dr. James Womack, Texas A & M University, "The Bovine Genome Project: From Mapping to Sequencing and Beyond", August 2005

Dr. Marie-Claire Orgebin-Crist, Vanderbilt University, "Lipocalins and Epididymal Function", September 2005

Dr. Brian Fritz, Fred Hutchinson Cancer Research Center, "Color, Color Perception and Reproductive Isolation of Stickleback Fish", October 2005

Dr. Kathrin Braun, University of Washington, "From Bio-administration to Bio-reflexivity? Transformation of Biopolitics" November 2005

Dr. David Crews, University of Texas, "Sculpting the Adult Sexual Phenotype", November 2005

Dr. Laura Brown, National Research Council-Canada, "From Sequence to Sickness: Using Genomics and Biotechnology to Understand the Aquatic Animal Pathogen Aeromonas salmonicida", January 2006

Dr. Teresa Woodruff, Northwestern University, "Regulation of Mammalian Folliculogenesis", February 2006

Dr. Jodi Flaws, University of Maryland, "The Role of the Aryl Hydrocarbon Receptor in the Ovary", April 2006

Dr. Richard Schultz, University of Pennsylvania, "From Egg to Embryo: A Peripatetic Journey", April 2006
Dr. Caird Rexroad, "NCCWA Geno Research for the Selective Breeding of Rainbow Trout", May 2006

Dr. William Davidson, Simon Fraser University, "Genomic Approaches to Identifying the Sex-determining Genes in Atlantic Salmon and Arctic Carr", September 2006

Dr. Humphrey Hung-Chang Yao, University of Illinois, "From Testis to Wolffian Duct: Emerging New Players in Male Sexual Differentiation", November 2006

Dr. Jennifer Graves, Australian National University, "Sex Chromosomes and the Future of Men", January 2007

Dr. Grant MacGregor, University of California-Irvine, "FNDC3-a novel protein family with multiple roles in reproduction and development", February 2007

Cathryn Hogarth, Monash Institute of Medical Research, "Regulated Nuclear Transport in Spermatogenesis", Feb 2007

Dr. Carlos Morales, McGill University, "Insights on the Mechanism and Function of "Sortilin": A Novel Lysosomal Sorting Receptor", March 2007

Dr. John McCarrey, University of Texas at San Antonio, "Epigenetic Regulation of Genetic Integrity", April 2007

Dr. Jaga Giebultowicz, "Involvement of Clock Genes in Reproduction: From Insects to Mice", August 2007

Dr. Andrea Cupp, University of Nebraska-Lincoln, "Ratio of VEGIA ANGROGENIC to Inhibitory Isoforms is critical for both vascular development and gonadal function" October 2007

Dr. Terry Brown, Johns Hopkins Bloomberg School of Public Health, "Benign Prostatic Hyperplasia in an Aging Rat Model" November 2007

Dr. Chuck Murry, University of Washington, “Pluripotent Stem Cells for Cardiovascular Repair”, August 2009

Dr. Derek McLean, Washington State University, “Spermatogonial Stem Cell Homeostasis”, September 2009

Dr. James Pru, Washington State University, “Mechanisms of Endometrial Regeneration”, October 2009
Dr. Eric Juengst, Case Western Reserve University, “Ethical Issues in Contemporary Human Embryology”, November 2009

Dr. Michael Griswold, Washington State University, “Vitamin A and Spermatogenesis”, January 2010

Dr. David Page, Whitehead Institute, “Choosing Sex: How Germ Cells Take the Road Less Traveled”, February 2010

Dr. R. Scott Hawley, Stowers Research Institute, “The Molecular Genetics of Meiosis”, March 2010

Dr. Paula Cohen, Cornell University, “In Search of an Integrated View of Meiotic Recombination in the Mouse”, March 2010

Dr. Maria Jasin, Sloan-Kettering Institute, “Recombination in Mouse Meiosis”, April 2010

Dr. Richard Day, Indiana University School of Medicine, “Monitoring dynamic protein interactions in the living cell nucleus”, October 6, 2010

Dr. Sue Moenter, University of Virginia, "Revealing the Secret Lives of GnRH Neurons with Electrophysiology.", December 1, 2010

Dr. Jason Robert, Arizona State University, "Epigenetics in health and disease: Conceptual and methodological issues.", January 12, 2011

Dr. Steven Henikoff, Fred Hutchison Cancer Research Ctr, "Nucleosome Dynamics and Epigenetic Inheritance of Centromeric Chromatin." February 16, 2011

Dr. Marisa Bartolomei, University of Pennsylvania, " Epigenetic Regulation of Genomic Imprinting" March 13, 2011

Dr. Wei Yan, University of Nevada, "Regulation of Spermatogenesis: from Genetics to Epigenetics", April 13, 2011

Dr. John Amory, University of Washington, "Is retinoic acid the key to male contraception and male infertility?", April
27, 2011

Dr. Francesco DeMayo, Baylor College of Medicine, "Progesterone Receptor Signaling in the Mouse Uterus", September 14, 2011

Dr. Robert Devlin, Fisheries and Oceans, Canada, "Genetically Distinct Salmon: Physiological and Behavioral Transformations in GH Transgenic and Domesticated Strains Relating to Ecological Risk", October 12, 2011

Dr. Erica Crespi, WSU, "Novel roles of leptin during early development: Lessons from amphibians", November 9, 2011

Dr. Tom Spencer, WSU, "Comparative Developmental Biology of the Uterus: Tails from Different Species", November 30, 2011

Dr. Heather Patisaul, North Carolina State University, "Fetal origins of female reproductive disorders: a role for endocrine diruptors", January 25, 2012

Dr. Coleen Murphy, Princeton University, "Slowing the Ticking Clock: Lifespan and Reproductive Aging in C. elegans", February 15, 2012

Dr. Terry Hassold, WSU, "As the Clock Ticks Down: Aneuploidy and the Aging Oocyte", March 21, 2012

Dr. Norman Arnheim, University of Southern California, "The Paternal Age Effect for Human Disease Mutations", April 25, 2012

Dr. Janice Bailey, University of Laval, Quebec, "Male-mediated impact of environmental contaminants on future generations", September 12, 2012

Dr. Dirk de Rooij, Utrecht University, "Computer simulation of the spermatogonial stem cell niche", September 19, 2012
